

Burns, Jim &amp; Karen

Jim and Karen built their business because they are very family-oriented. Their family includes their four sons, Chris, Reid, Colin, and Sloan. In addition to running a large business, Jim is the Assistant Dean at a medical university. It had taken him 28 years of education, including a BS in biology, a DDS in dentistry, an MS in education, and a PhD in microbiology and immunology, plus board certification in oral pathology, to attain that JOB.

When he first saw this business plan, he realized that the residual income aspect of the business plus the lifestyle at the Diamond level far surpassed anything being a doctor could ever offer. Although she was not as excited as Jim was in the beginning, Karen agreed to give the business a try, and within 17 months, they had reached the Platinum level. Karen then retired from her nursing career, became a full-time mother, and was absolutely sold on the business as a way to fulfill their family's needs, as well as to help out other families.

Jim and Karen are totally out of debt, including no mortgage payments. They spend part of their time at their penthouse condo on Brown's Island in Richmond, Virginia, overlooking the James River. At other times they enjoy quiet time with their family, friends, and business associates at their two Potomac River homes. There, they relax, fish, and enjoy water sports with their 25-foot, 360 horsepower speed boat; a 26-foot fishing boat; a 17-foot duck hunting boat; and jet skis! One of the highlights of any day at the river is SUNSET.

In addition to the many material rewards, their greatest joy is helping someone else to see the dream of "Health, Love, Wealth, and the Time to enjoy them."
